

Medical Assistance in New Caledonia

For a medical emergency in New Caledonia, dial 15.

Please note: The Department of State and U.S. Embassy in Fiji assume no responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the entities or individuals whose names appear on the following lists. Inclusion on this list is in no way an endorsement by the Department or the U.S. government. Names are listed alphabetically, and the order in which they appear has no other significance. The information on the list is provided directly by the local service providers; the Department is not in a position to vouch for such information.

Medical facilities are good on the main island, but they are more limited on the outer islands. There is one public and one private hospital, various private clinics and many pharmacies in Noumea. Outside the city center, medical supplies may be limited. Each town has a community clinic, where you will be able to get first aid treatment. Health care is expensive in Noumea, but it is free on the Loyalty Islands. A 24/7 hyperbaric (decompression) chamber is located in Noumea at the CHT Gaston-Bourret.
